Itinerary:

The Magic Water Circuit, located in the Park Reserve, is a wonderful set of 13 ornamental interactive

cybernetic fountains where water, music, light, images and laser effects, in perfect conjunction and harmony, They mix to present performances, unique and amazing, full of magic, illusion and fantasy. It got in 2009 the Prize: Guinness Record global recognition and distinction, the highest sources Complex World in a public park.

The Magic Water Circuit, city major project, recognized nationally and internationally as one of the main tourist attractions of Lima, has become a symbol of the recovery of public spaces and icons of the modern city, driving the improvement quality of life of citizens since it opened on 26 July 2007.

This wonderful circuit, it included the recovery of more than 7000 trees, restoration of all existing monuments in the park reserve, including the commissioning value of the original 23 pools dating from 1929 and with them their historical and cultural character. Today Lima has an amazing show in a space full of magic, fantasy and lots of culture which is also a meeting place and enjoyment of all people.
